

Model Development Phase Template

Date	15 july 2024
Team ID	740039
Project Title	Price prediction of natural gas using Mchine learning approach.
Maximum Marks	5 Marks

Feature Selection Report Template: In this we will identify each feature and it's dependency in model development.

Feature	Description	Selected (Yes/No)	Reasoning
Date	Main feature which predicts or depicts the price of natural gas on the respective date.	yes	For predicting the price of natural gas on respective day and year.

price	It is the main feature where we train the model for future insights.	Yes	Plays a major role in the model training and model building.
